

COSC 340 – Project Video Instructions

- Your team only needs to submit a video demo if you did not demo in class.
- Record a 4-6 minute video demonstrating your project.
- Assume the viewer has no idea what your project is about.
- Walk through the problem you aim to solve and the major features of your app.
- Ensure your app's text is readable with whatever resolution you record in.
- Narrate the video. There is no need to overlay your webcam video.
- Upload the video to YouTube (you can make it private) and submit the URL on Canvas.
- The deadline can be found on Canvas.
